The Golf Villas

The Golf Villas overlooks some of the most spectacular coastline in the world. This community of one- and two-bedroom, low-rise condominiums is designed to provide luxury, comfort and convenience in the Kapalua tradition.

Each Golf Villas building is composed of no more than 12 residences, a low-density design that creates a world of privacy and

exclusivity. Amenities include four swimming pools, gas barbecue areas, an attractive reception center, and an on-site manager's office and residence.

Interiors of The Golf Villas are spacious and efficient, the style distinctively Kapalua. Extra large lanais and windows, expansive living spaces and lofty ceilings enhance each breathtaking view.
